PERSONALITY

MBTI - Architect / Inventor

My MBTI personality type is INTP/ENTP (approximately equal on E and I, and very strongly NTP). I would like to think that I'm a mix of both types, the Architect and Inventor (as categorized by the KTS). I tend to be naturally curious about everything, and always questioning the world around me.

ActualMe Thinking Style - Entrepreneur

My thinking style is a balance between the right brain and the left - largely intuitive and analogic, but using facts and logic to back it up. I generally think in terms of big picture solutions, but have the ability to narrow down to the details when the situation requires.

IDOLES

Seth Godin

In addition to being the author of the books, as well as one of the most popular blogs in the world, Seth Godin was also the inspiration behind a lot of my endeavours. His belief in the power of standing out is one that resonates greatly with me, and is something I aspire to.

Dennis Bergkamp

A Dutch footballer with exemplary technique, Dennis Bergkamp is my favorite player of all time. He embodied vision, creativity and intelligence; always able to think two steps ahead of his opponents and see opportunities nobody else could.
